## IN THE ABSTRACT

Please insert the abstract, attached herewith on a separate page, at the end of the present application.

## IN THE CLAIMS

Please cancel claims  $\delta \!\!\!/ \nabla$  and  $\delta \!\!\!/$  without prejudice.

## Please add new claims 21-32

- (New) A solid implant comprising at least one parasiticidal compound and at least one antioxidant, wherein said solid implant is stable for up to 30 weeks at 30°C at an electron irradiation level of up to 25 kGy.
- U22. (New) The solid implant of claim 21, wherein said solid implant is stable for up to 30 weeks at 30°C at an electron irradiation level of up to 20 kGy.
- $\mathcal{O}_{26}$ . (New) The solid implant of claim 21, wherein said solid implant is stable for up to 30 weeks at  $30^{\circ}$ C at an electron irradiation level of up to 15 kGy.
- 26 24. (New) The solid implant of claim 21, further comprising one or more tableting excipients.
- 2725. (New) The solid implant of claim 24, wherein said one or more tableting excipients include a bulking agent.
  - 3026. (New) The solid implant of claim 25, wherein said bulking agent is lactose.
- 3(2/. (New) The solid implant of claim 21, wherein said one or more tableting excipients include magnesium stearate.
- (New) The solid implant of claim 24, wherein said one or more tableting excipients include a tablet disintegrant.
- (New) The solid implant of claim 28, wherein said tablet disintegrant is sodium starch glycolate.
- 30. (New) The solid implant of claim 21, wherein said at least one parasiticidal compound has an aqueous solubility below 100 mg/ml.
- (New) The solid implant of claim 21, wherein said at least one parasiticidal compound is Doramectin.
- 3 (New) The solid implant of claim 21, wherein said at least one antioxidant is butylated hydroxy toluene or butylated hydroxy anisole.
